

JOINT PRESS RELEASE

Ministry of Education
SINGAPORE

17 December 2020

RELEASE OF 2020 SINGAPORE-CAMBRIDGE GCE N(A)- & N(T)-LEVEL EXAMINATION RESULTS

1. Candidates who sat for the 2020 Singapore-Cambridge General Certificate of Education (GCE) Normal (Academic) [N(A)] and Normal (Technical) [N(T)] Level Examinations received their results today¹.
2. Given the ongoing COVID-19 situation, arrangements have been made for school candidates to receive their results from their respective secondary schools with safe management measures in place. Private candidates will be notified of their individual result by post as per previous years. All candidates who are eligible for SingPass are also able to access their results online via the Singapore Examinations and Assessment Board's (SEAB) results release system at www.seab.gov.sg.
3. 9,321 candidates from the Secondary 4 N(A) Course and 4,156 candidates from the Secondary 4 N(T) course sat for the examinations. 9,290 (or 99.7%) of the candidates from the N(A) course have been awarded the GCE N(A)-Level certificate², and 4,094 (or 98.5%) of the candidates from the N(T) course have been awarded the GCE N(T)-Level certificate³.
4. This year, 43.2% of the school candidates from the N(A) course sat for subjects in the GCE Ordinary Level (GCE O-Level) Examinations. Schools will take into consideration their combined GCE N(A)-Level and school-based O-Level preliminary examination results when determining their eligibility for Secondary 5 N(A) or post-secondary pathways.

¹ The Cambridge Assessment International Education, the Ministry of Education, Singapore and the Singapore Examinations and Assessment Board (SEAB) are the joint examining authorities for the Singapore-Cambridge General Certificate of Education Normal (Academic) and Normal (Technical) Level Examinations.

² The GCE N(A)-Level certificate is awarded to candidates who obtain at least a Grade 5 or better in at least one N(A) subject.

³ The GCE N(T)-Level certificate is awarded to candidates who obtain at least a Grade D or better in at least one N(T) subject.

PROGRESSION TO SECONDARY 5 NORMAL (ACADEMIC)

5. 77.7% of the school candidates from the N(A) course are eligible for promotion to Secondary 5 N(A). These are school candidates in the N(A) course who obtained an aggregate not exceeding 19 points in English Language, Mathematics and the best three subjects (ELMAB3), and at least a Grade 5 for all subjects used in the computation of the ELMAB3.

PROGRESSION PATHWAYS FOR NORMAL (ACADEMIC) STUDENTS

6. Secondary 4 N(A) students who sat for the GCE N(A)-Level Examinations in 2020 and obtained a raw ELMAB3 aggregate not exceeding 19 points⁴ will have the option of applying for the Direct-Entry Scheme to Polytechnic Programme (DPP).

7. The DPP prepares Secondary 4 N(A) students for progression into selected polytechnic diploma courses via a two-year *Higher Nitec* programme at the Institute of Technical Education (ITE). Under the DPP, students who successfully complete their *Higher Nitec* course and attain the minimum qualifying Grade Point Average (GPA) are guaranteed a place in a polytechnic diploma course mapped to their *Higher Nitec* course.

8. About 1,200 DPP places will be offered across all three ITE Colleges. Applications for the DPP will open on 17 December 2020. For more information, please refer to <https://www.ite.edu.sg/admissions/full-time-courses/higher-nitec/dpp/>.

9. Secondary 4 N(A) students who sat for the GCE N(A)-Level Examinations in 2020 also have the option of applying for the Polytechnic Foundation Programme (PFP). Students are eligible to apply for the PFP if they have obtained a raw ELMAB3 aggregate not exceeding 12 points, and meet the subject-specific requirements for their chosen course⁵.

10. The PFP is a one-year foundation programme at the polytechnics that offers a practice-oriented curriculum taught by polytechnic lecturers, to prepare students for entry into the relevant polytechnic diploma courses. Upon completion of the PFP, students will progress to their pre-selected diploma course, subject to them passing all modules in the PFP.

⁴ To be eligible for the DPP, students must also attain a minimum grade of 4 in both English Language (minimum required grade of 3 for Business & Services courses) and Mathematics, and minimum grade of 5 in three other subjects (excluding CCA). CCA bonus points are not factored into the ELMAB3 aggregate used for considering eligibility for the DPP, but are taken into account for posting.

⁵ To be eligible for the PFP, students must obtain an ELMAB3 aggregate score not exceeding 12 points (excluding CCA bonus points), and attain a minimum grade of 3 (minimum grade of 2 in English Language for Group 2 courses) in all subjects that make up the ELMAB3 aggregate. CCA bonus points are not factored into the ELMAB3 aggregate used for considering eligibility for the PFP, but are taken into account for posting.

11. The polytechnics will offer about 1,500 PFP places in total. Applications for the PFP will open in January 2021, on the day of the GCE O-Level Examination results release. Secondary 4 N(A) students who intend to apply for the PFP should first progress to Secondary 5 on 4 January 2021. For more information, please refer to <https://pfp.polytechnic.edu.sg/PFP/index.html>.

12. All N(A) course students who have completed their secondary education may also apply to further their studies through ITE's *Nitec* programmes. For more information on courses available at ITE, please refer to <https://www.ite.edu.sg/courses/full-time-courses/nitec/>.

PROGRESSION PATHWAYS FOR NORMAL (TECHNICAL) STUDENTS

13. All N(T) course students who complete their secondary education in 2020 may apply to further their studies through ITE's *Nitec* programmes. For more information on courses available at ITE, please refer to <https://www.ite.edu.sg/courses/full-time-courses/nitec/>.

14. Schools may also laterally transfer Secondary 4 N(T) students to Secondary 4 N(A) if they have obtained grade A for both English Language and Mathematics, and grade B or better for one other subject at the GCE N(T)-Level Examination.

PROVISION OF EDUCATION AND CAREER GUIDANCE (ECG) SERVICES

15. Candidates are advised to select courses based on their strengths and interest in the field of study. School candidates may consult their teachers or ECG Counsellors in their respective secondary schools to help them make informed decisions about their next steps. To complement the ECG services provided by schools, candidates may also make an appointment for online or phone counselling with an ECG Counsellor from the ECG Centre at MOE (Grange Road) via 6831 1420, MOE_ECG@moe.gov.sg or <https://go.gov.sg/moe-ecg-centre>. The MOE ECG Centre will offer online or phone counselling from 10 to 23 December 2020, 9.00am to 5.00pm (Saturdays: 9.00am to 12.30pm). Candidates can also refer to the MySkillsFuture website at <https://go.gov.sg/mysfsec> to find out more about the range of education and career pathways available to them.
